HOW TO DISCUSS SENSITIVE TOPICS WITH PEDIATRIC ONCOLOGY PATIENTS AND FAMILIES

A Four-Session Series

Thursday, February 23, 2012
Thursday, March 15, 2012
Thursday, April 12, 2012
Thursday, May 3, 2012

Time: 2:00-3:00 PM CT

A free web conference series
for Healthcare Professionals

HOW TO DISCUSS SENSITIVE TOPICS WITH PEDIATRIC ONCOLOGY PATIENTS AND FAMILIES

Series Objective: As more children with cancer are surviving, there is a greater need to help them live with the long-term effects they may face. Some issues are difficult to discuss with families and survivors in a realistic, yet hopeful manner. This web conference series will offer pediatric oncology professionals guidance on the best ways to approach these difficult topics.

Session 1

Benefits of Palliative Care

Thursday, February 23, 2012 2:00-3:00 PM CT

Presenter: Linda Del Vecchio, MSN, RN-BC,
Pediatric Nurse Practitioner in the Palliative Care Program at
Rhode Island Hospital

About this web conference: Learn the benefits of incorporating palliative care into the treatment of children with cancer.

Session 2

Psychological Impact of Facial Deformities

Thursday, March 15, 2012 2:00-3:00 PM CT

Presenter: Canice E. Crerand, PhD,
Assistant Professor of Psychology, Dept. of Surgery, Perelman
School of Medicine, University of Pennsylvania; Psychologist,
Division of Plastic Surgery, The Children's Hospital of Philadelphia

About this web conference: Learn about the psychological impact of facial deformities on a child with cancer and identify resources to best help them.

Session 3

Identifying Risks and Helping Kids Succeed After Cancer

Thursday, April 12, 2012 2:00-3:00 PM CT

Presenter: Alicia Kunin-Batson, PhD, LP,
Pediatric Neuropsychologist and Assistant Professor, Division of
Pediatric Clinical Neuroscience, University of Minnesota
Department of Pediatrics

About this web conference: Learn about solutions and resources for children who are at high risk for a lifetime of struggle due to the physical and psychological impact of treatment.

Session 4

Social Competence of Children with Central Nervous System Tumors

Thursday, May 3, 2012 2:00-3:00 PM CT

Presenter: Kristina Hardy, PhD,
Assistant Professor, Center for Neuroscience and Behavioral
Medicine, Neuropsychology Division, Children's National Medical
Center

About this web conference: Discuss the long-term impact of treatment for central nervous system tumors and identify early interventions that may improve the social competence of these children.

Target Audience

Nurses and other healthcare professionals involved in the treatment of children diagnosed with cancer.

Contact Hours

One (1) contact hour will be awarded per session for a total of four (4) hours awarded upon series completion.

Disclaimer:

In order to receive the contact hour, participants must complete the registration and participate in the entire conference, as verified by a web conferencing service report. If multiple individuals are participating from one site, a moderator must complete the "Beyond the Cure Web Conference Participant Log" found at beyondthecure.org and fax to 314-735-2019. In addition, all participants must complete an online survey within (30) thirty days after the conference; contact hours will **not** be awarded after (30) thirty days.

There is no conflict of interest, sponsorship or commercial support for this activity. There will be no off label use during the program. Approval refers only to the education activity being provided and does not imply The National Children's Cancer Society, the Missouri Nurses Association or ANCC Commission on Accreditation endorsement of commercial products.

This activity has been submitted to the Missouri Nurses Association for approval to award nursing contact hours. The Missouri Nurses Association is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.
